Lisbon, November 10. *N. S.*

MOnsieur *Harteloire* is come to *Cadiz* with 5 *French* Men of War from *Breſt*. The Cardinals *d'Eſtrees* and *Portocarrero* having left the Court at *Madrid*, a new Cabinet Council is eſtabliſhed there, which conſiſts of Don *Manuel d'Arias*, Preſident of the Council of *Caſtille*, the Marquis *de Manſera*, and the Abbot *d'Eſtrees*, Nephew of the Cardinal *d'Eſtrees*, and now Ambaſſador from *France*. The *Spaniſh* Soldiers continue to deſert in great numbers, and to come over into this Kingdom, where they meet with all Encouragement; and this Deſertion will probably be encreaſed, by the Advice which we have received of their King *Charles* the Third's being arrived at *Duſſeldorp*, in his way hither: This News haſtens all the Preparations here for his Reception, which will be very magnificent.

Venice, Novemb. 3. The Count *de Caſtelbarco* is gone from hence to the *Trentine*, to ſee his Houſes and Lands in that Country, which have been very much ruined by the *French* in their Expedition thither. Letters from the Imperial Army commanded by General *Staremberg* ſay, Prince *Eugene*'s Secretary was arrived there, with Money and Bills of Exchange, amounting to a conſiderable Sum, to pay the Forces. Colonel *Ebergenni* was alſo returned to the Army from *Germany*, with 500 Horſes to remount his Huſſars. Theſe Letters add, that General *Viſconti*, who had been ſent with a Detachment of Horſe to join the Duke of *Savoy*'s Army, and had marched as far as *Seravalla* without any oppoſition, was met there by a much ſtronger Body of *French* Horſe, with whom he had had a ſharp Diſpute, and loſt near 200 Men; that however he continued his March by another way, and got into *Piedmont*: Of all which we expect a more particular Account.

Copenhagen, Novemb. 10. Yeſterday the King of *Denmark* made an end of reviewing all the Foot in Gariſon here, which amount to 6500 Men, beſides the Horſe-Guards and Artillery-Men, making 600 more; but this Gariſon being thought too great in time of Peace, 6 Companies of the Foot-Guards, and as many of the Regiment of Granadiers, have their Winter Qurrters aſſigned them in the other Towns of this Iſland. It is ſaid, that Monſieur *Urbig*, late Envoy from this Crown to the Court of *Vienna*, is to be ſent to the Court of *Hanover*, in the room of Monſieur *Meinke*. Letters from *Stockholm* ſay, that 300 Dragoons had been put on board there, in order to be ſent to *Pruſſia*, and would be followed by more Forces.

Vienna, November 4. The Emperor has iſſued a Commiſſion to the Count *d'Ottingen*, Preſident of the *Aulick* Council, General *Heiſter*, and the Baron *de Weber*, for ſettling Affairs in *Tirol*, and to proceed againſt ſuch Perſons in the Regency there as ſhall appear to have been Favourers of the Elector of *Bavaria*'s Deſigns againſt that Country. The Report we had lately of the Surrender of *Kueffſteyn*, the only Place whereof the *Bavarians* remained poſſeſſed in *Tirol*, is not confirmed; but our freſheſt Advices from thence are, that General *Heiſter* had reduced it to the laſt Extremity. Letters from *Italy* of the 22d of the laſt Month give an Account of the Duke of *Vendoſme*'s being arrived in the *Montferrate* with the *French* and *Spaniſh* Forces which are to be employed againſt the Duke of *Savoy*, to whom he had ſent a Propoſal of *Reſtoring his Troops, and putting him into Poſſeſſion of the State of* Milan, *if he would make over to* France *his Dutchy of* Savoy, *with the County of* Nice; to which his Royal Highneſs's Anſwer was, *That he would defend himſelf as well as he could*. We hear the *French* have abandoned *Carpi*, and ſome other Places in the *Modeneſe*, to ſtrengthen their Army along the *Secchia*. The laſt Letters from the Imperial Army under the Count *de Staremberg* left them in a readineſs to march. The Emperor's Council of War meets very frequently, to conſult upon the Preparations to be made for carrying on the War the next Campaign; and they talk of making a conſiderable Addition to his Troops.

Cologne, Novemb. 13. Our Advices from the *Upper Rhine* mention ſeveral vigorous Actions that have paſſed at the Siege of *Landau*, where the *French* do daily loſe abundance of Men. They have poſſeſſed themſelves of a Ravelin, after a Diſpute of 5 hours, in which time it was thrice taken and retaken, and the Beſieged being forced from that Work in a fourth Attack, ſet fire to a Mine, and blew it up; The Enemy in this Occaſion had 1200 Men killed and wounded, and the Beſieged loſt near 300 Men, among whom are reckoned a Lieutenant Colonel, and 3 or 4 other Officers. We are aſſured, that the Gariſon is able to hold out ſeveral days longer; ſo that we hope the Prince of *Heſſe*, who is marching thither with all poſſible Diligence, will arrive time enough to relieve it. Monſieur *Precontal*, to prevent this Deſign, is marching with a Reinforcement of 10000 Men to the *French* Camp before that Place; but he was on the 10th Inſtant no farther than *Triers*, and the Confederate Troops under the Prince of *Heſſe* were that day advanced to *Creutſnach*; ſo that they will probably be able to attack the *French* Army before *Landau* before Monſieur *Precontal* can arrive there.

Falmouth, Novemb. 8. Her Majeſty's Ship the *Leopard* ſailed from hence this day to the Eaſtward, having under her Convoy the *Elizabeth* of *London*, *Henry Connall* Maſter, bound home from *Barbadoes*, the *Endeavour* of *Barbadoes*, *Samuel Payne* Maſter, bound likewiſe to *London*, the *Rook* of *London*, *William Cherry* Maſter, bound home from *Viana*, the *Anne and Mary*, *James Sands* Maſter, a Tin Ship, belonging to this Place, bound to *London*, and the *America* of *Plimouth*, *Thomas Joſſelyn* Maſter, bound home from *Virginia*.

Plimouth, Novemb. 9. Yeſterday came in here the *Smirna* Galley of *Amſterdam*, *Jacob Anthony* Maſter, bound to *Lisbon*, and a Prize laden with Fruit from *Bourdeaux*, and ſent in by the *Severn* Galley, Captain *Thompſon* Commander. This day came in Her Majeſty's Ship the *Leopard*, with ſeveral Merchant Ships under her Convoy, bound for *London*, and one for this Place.

Yarmouth, Novemb. 10. On the 7th Inſtant came into our Roads from the River of *Thames* the
